Search for a Chief Financial Officer

CALGARY HEALTH TRUST

Established in 1996, the Calgary Health Trust (CHT) was founded to coordinate the efforts of the then many separate health care foundations attached to individual hospitals and healthcare centres.

The CHT, through the incredible generosity of its donors, has raised more than \$427 million to transform healthcare in Alberta by funding state-of-the-art technology, innovative programs, research and education for the Foothills Medical Centre, Peter Lougheed Centre, Rockyview General Hospital, South Health Campus, many community health programs and 12 Carewest care centres in the Calgary community.

With change comes new opportunities and challenges. Reporting to the President and Chief Executive Officer, the Chief Financial Officer is responsible for directing and leading the team responsible for finance, accounting, reporting and analysis, budgeting, treasury and investment, information systems, risk management, audit, legal, privacy and regulatory compliance activities.

As a key member of the leadership team, you will participate in the business and strategic planning process and provide support to the Finance and Audit Committee and Board. You are creative and have successfully identified funding or revenue opportunities on behalf of an organization. You are innovative in your approach to systems and processes to create efficiencies and improved reporting within an organization.

If you have your CPA designation and are ready to take a meaningful role in an organization which will inevitably touch you and your families lives, please forward a cover note and your resume in complete confidence to careers@altopartners.ca.
